

# Foot Clinic

The Osler Medical Foot Clinic provides professional, routine foot care services for patients with certain medical conditions that place them at high risk for developing foot problems and complications.

These conditions include:

- poor circulation
- peripheral neuropathy (loss of sensation)
- bleeding disorders (including patients on Coumadin/warfarin)
- Diabetes (The American Diabetes Association recommends an annual diabetic foot exam and routine diabetic foot care for all patients with diabetes.)

For patients with these conditions, routine foot care is a Medicare-covered benefit.

The Osler Foot Clinic is staffed by medical professionals and is supervised by Board Certified Podiatrist Dr. Martin Lenoci.

Please call the Osler Medical Foot Clinic for an appointment for a consultation.
